Relay IPs & Networks

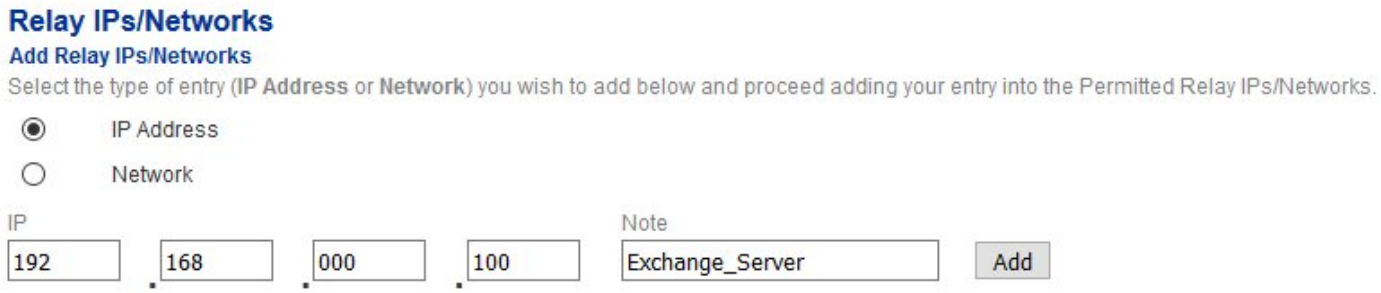
In this section, you can add which individual IPs or networks will be allowed to send (relay) email through Hermes SEG.

Best security practice is to never allow entire networks to send email through Hermes SEG and instead only allow specific IPs.

Add Relay IP

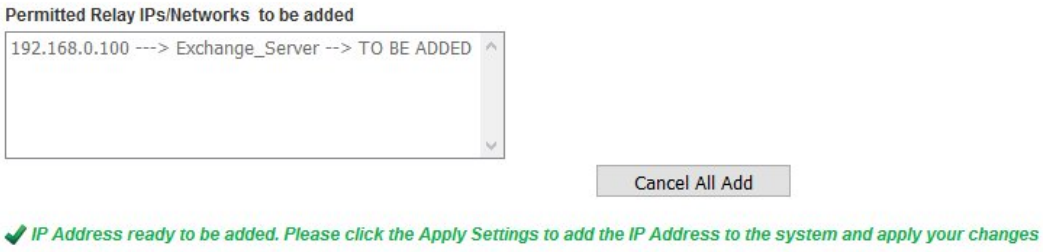
1. Under the **Select the type of entry...** section, Select **IP Address** option.
2. Under the **IP** field, enter the IP Address that you want to allow.
3. Under the **Note** field, enter a note identifiying the IP address and click the **Add** button (**Figure 1**).

Figure 1



4. Each IP address you add shows up in the **Permitted Relay IPs/Network to be added** section (**Figure 2**)

Figure 2



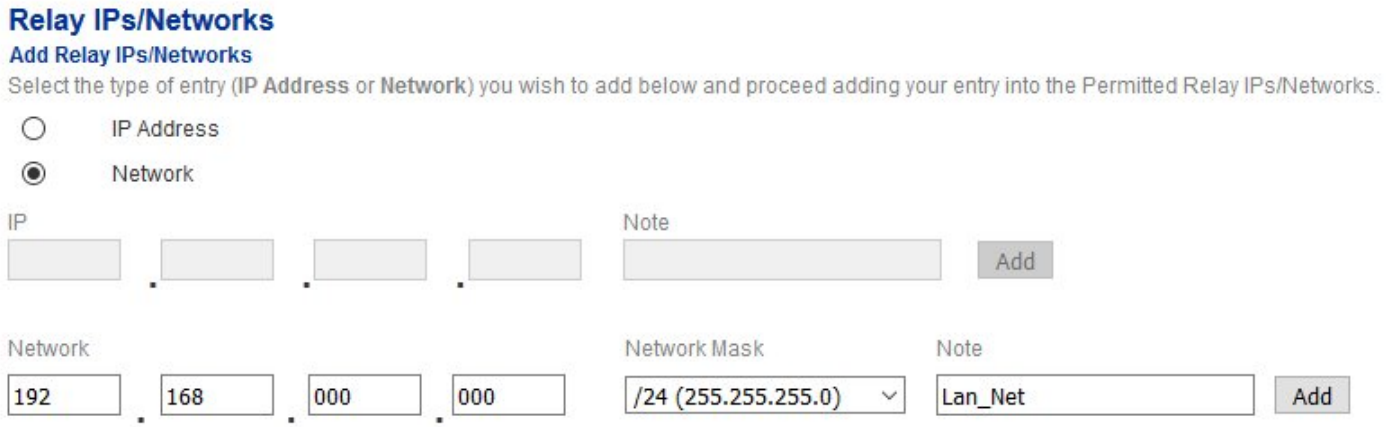
5. Continue adding IP addresses as needed. When finished, click on the **Apply Settings** button on the bottom of the page (**Figure 3**).

Figure 3

Add Relay Network

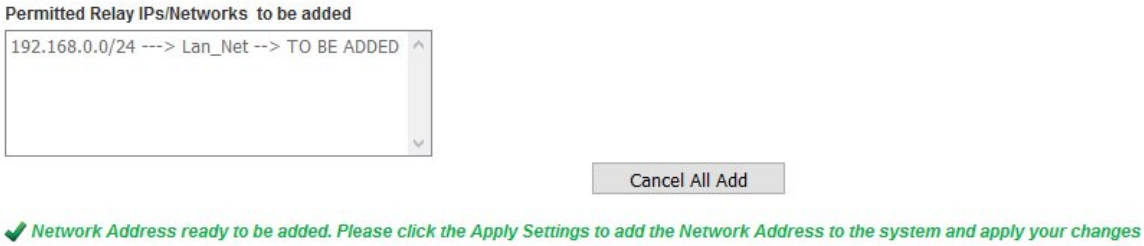
1. Under the **Select the type of entry...** section, Select **Network** option.
2. Under the **Network** field, enter the Network Address that you want to allow.
3. Under the **Network Mask** drop-down field, select the mask (subnet mask) of the network
4. Under the **Note** field, enter a note identifiying the network address and click the **Add** button (**Figure 4**).

Figure 4



5. Each network address you add shows up in the **Permitted Relay IPs/Network to be added** section (**Figure 5**)

Figure 5



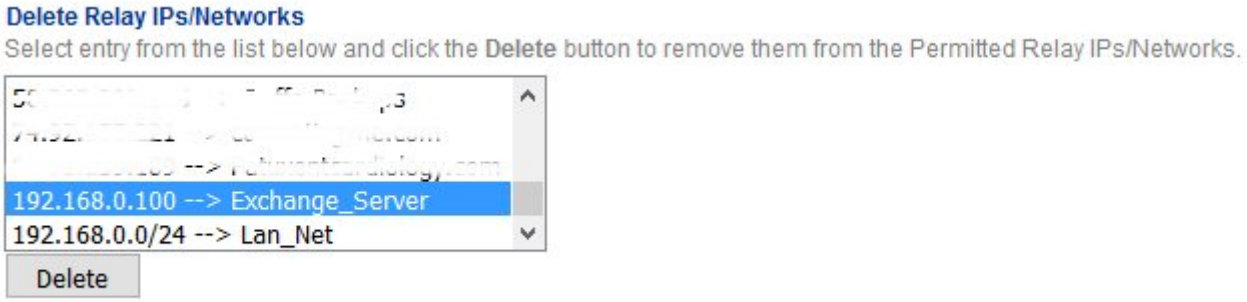
6. Continue adding Network addresses as needed. When finished, click on the **Apply Settings** button on the bottom of the page (**Figure 6**).

Figure 6

Delete Relay IPs/Networks

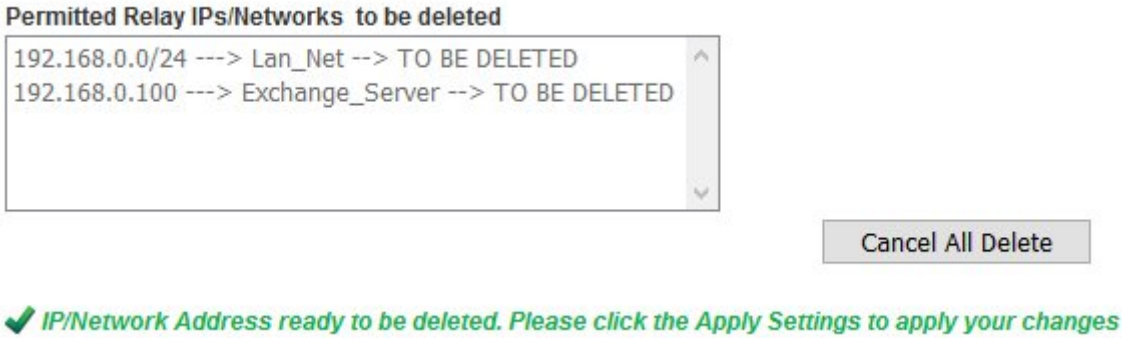
1. Under the **Delete Relay IPs/Networks** section, select the entry you wish to delete and click the **Delete** button below (**Figure 6**). **Note that only one entry can be selected to be deleted at a time.**

Figure 6



2. Each entry you select to be deleted shows up in the **Permitted Relay IPs/Network to be deleted** section (**Figure 7**).

Figure 7



3. Continue selecting entries to be deleted as needed. When finished, click on the **Apply Settings** button on the bottom of the page (**Figure 8**).
