

Access DeezeK Nextcloud with DeezeK Mail Credentials

- Navigate to DeezeK Mail at <https://mail.hosting.deeztek.com> and login with your mailbox username and password (**Figure 1**):

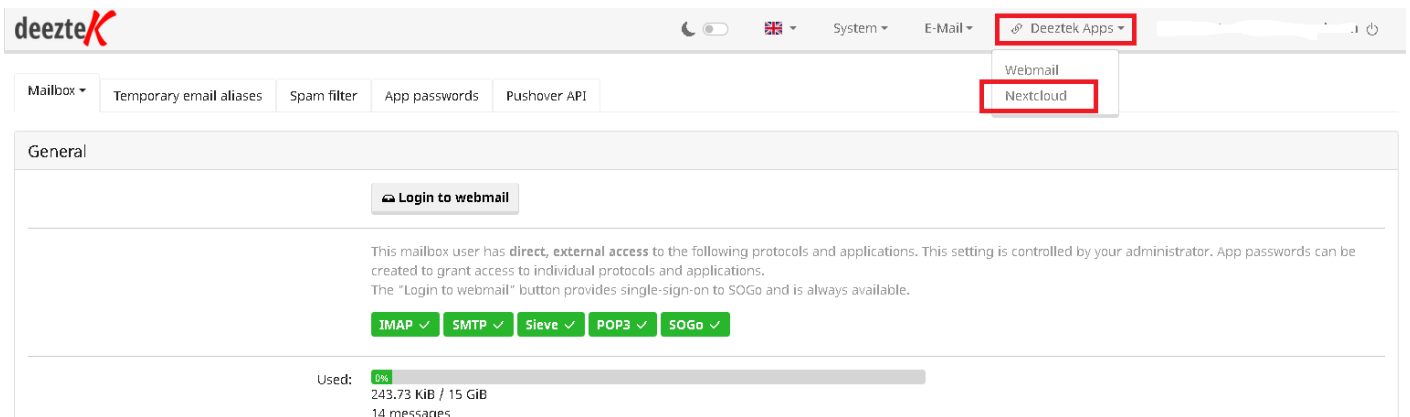

Figure 1

The screenshot displays the DeezeK Mail UI login interface. At the top, there is a 'Login' header with a user icon and a dark mode toggle. The DeezeK logo is prominently displayed in the center. Below the logo, the text 'DeezeK Mail UI' is visible. The login form consists of two input fields: an email field containing 'someone@domain.tld' and a password field with masked characters. Both fields are enclosed in a red rectangular box. Below the password field, there are two green buttons: 'Login' (also highlighted with a red box) and 'FIDO2/WebAuthn Login'. To the right of these buttons is a language selector showing the UK flag. Below the buttons, there is a link '> Forgot Password?'. Further down, the text 'DeezeK Apps' is displayed with a small icon. At the bottom of the main content area, there are two blue buttons: 'Webmail' and 'Nextcloud'. A footer bar at the very bottom contains a link '? Show/Hide help panel'.

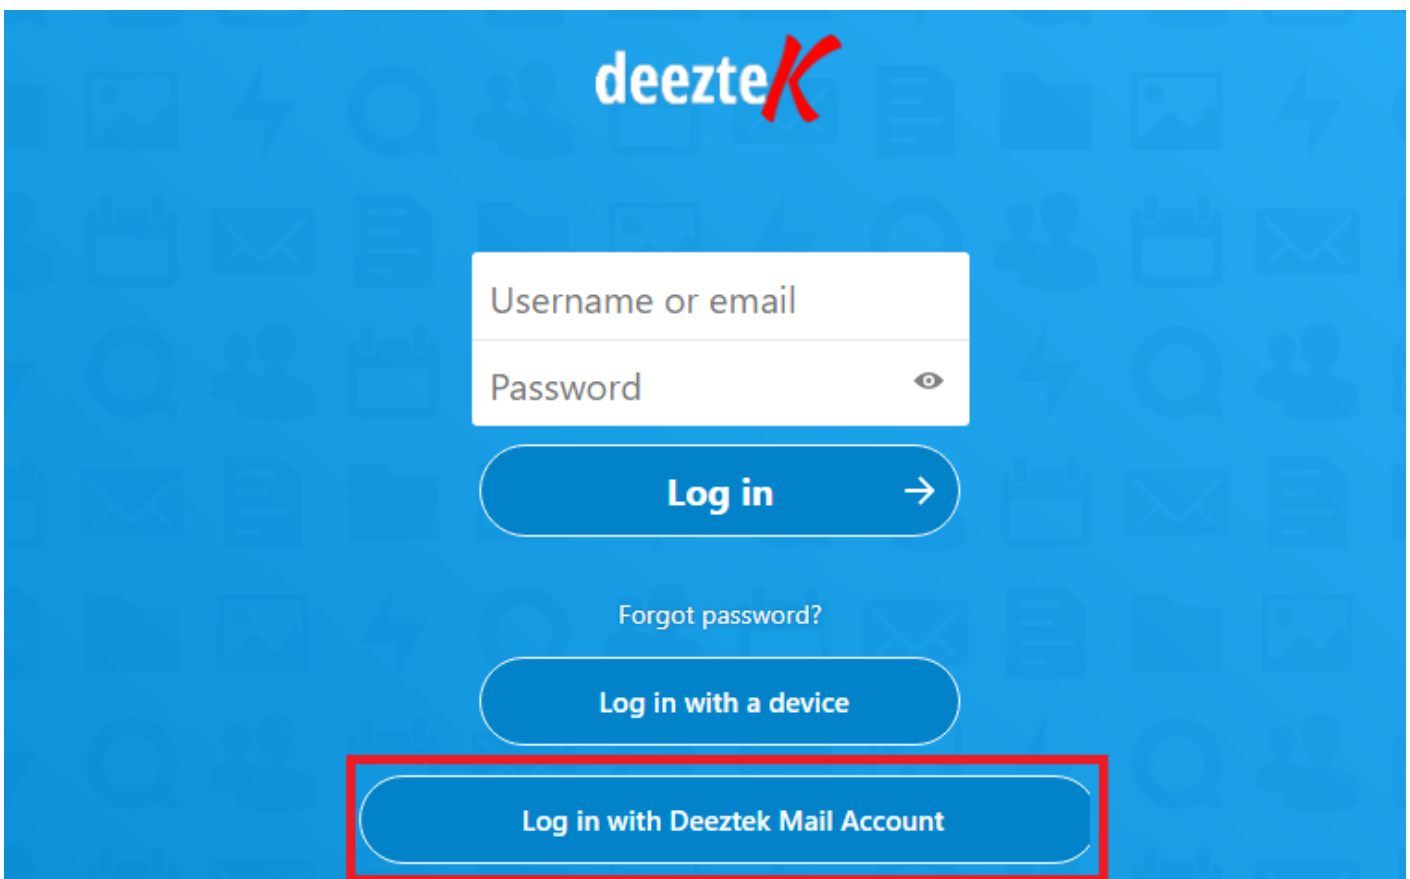

- Once logged in, click the **Deeztek Apps** button on the upper-right corner and on the resultant menu, click on **Nextcloud** (Figure 2).

Figure 2

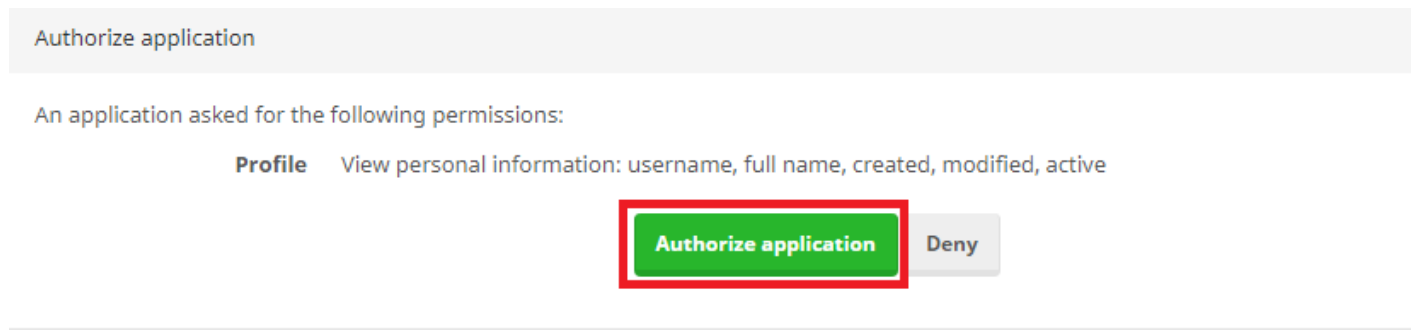

- On the **Login to Deeztek Cloud** screen, click on the **Login with Deeztek Mail Account** button (Figure 3):

Figure 3

- On the **Authorize application** screen, click the **Authorize application** button (**Figure 4**):

Figure 4

- You should now be logged in to Deezytek Cloud.
