

Configure Outlook for Hosted Mail using IMAP and CalDav Synchronizer

Outlook 2016 or higher from Office 365 on Windows

If you installed **Outlook 2016**, **Outlook 2019** or **Outlook for Office 365** from Office 365 (i.e. downloaded and installed from Office 365), please be advised that those versions of Outlook have an issue with autodiscover. Because of this, you must first disable the **Simplified Account Creation wizard** in order to setup your mailbox with our Hosted Mail.

Disable Simplified Account Creation wizard

You can [disable the Simplified Account Creation](#) wizard by following the instructions outlined at the link below:

<https://support.microsoft.com/en-us/topic/how-to-disable-simplified-account-creation-in-outlook-2016-outlook-2019-and-outlook-for-office-365-662bf4f8-c357-dbc8-53b3-ff8f445e8247>

Alternatively, you can download and import the [disable_simplified_account_creation_wizard.reg](#) to your computer.

Download and install the latest version of CalDav Synchronizer

Navigate to [CalDav Synchronizer](#) page at <https://caldavsynchronizer.org/download-2/> and download the latest version of CalDav Synchronizer (As of the writing of this guide, the latest version was 4.0.0).

Extract the downloaded zip and then install CalDav synchronizer using the included **setup.exe**.

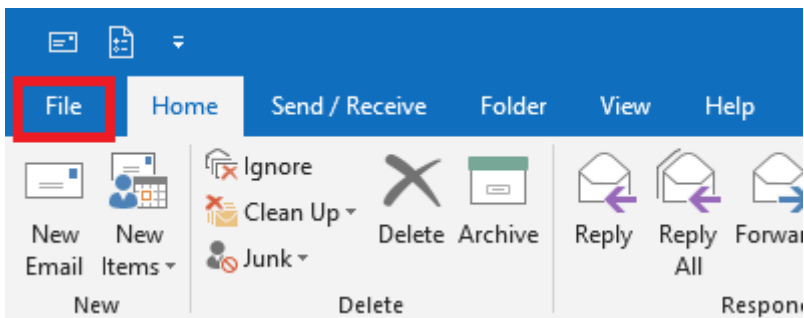

Configure Outlook

Start Outlook

If this is the first time starting Outlook, the **Auto Account Setup** window will automatically launch.

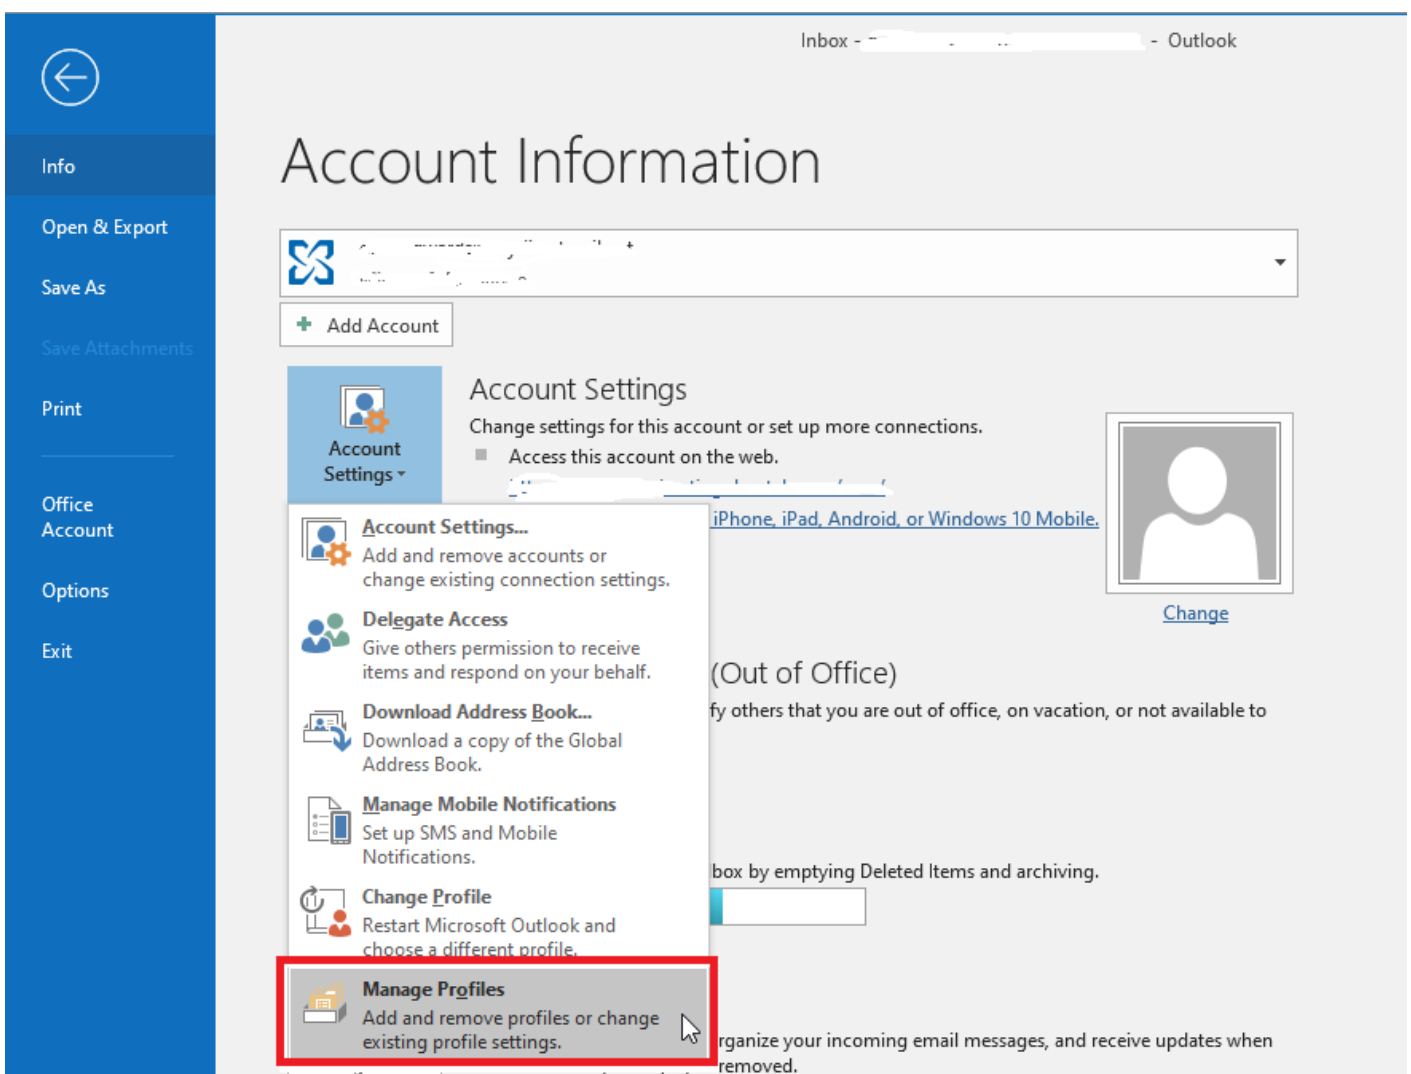

If this is **NOT** the first time starting Outlook, click on **File** on the upper left-hand corner (**Figure 1**).

Figure 1

Click on **Account Settings**, and then click **Manage Profiles** (**Figure 2**).

Figure 2

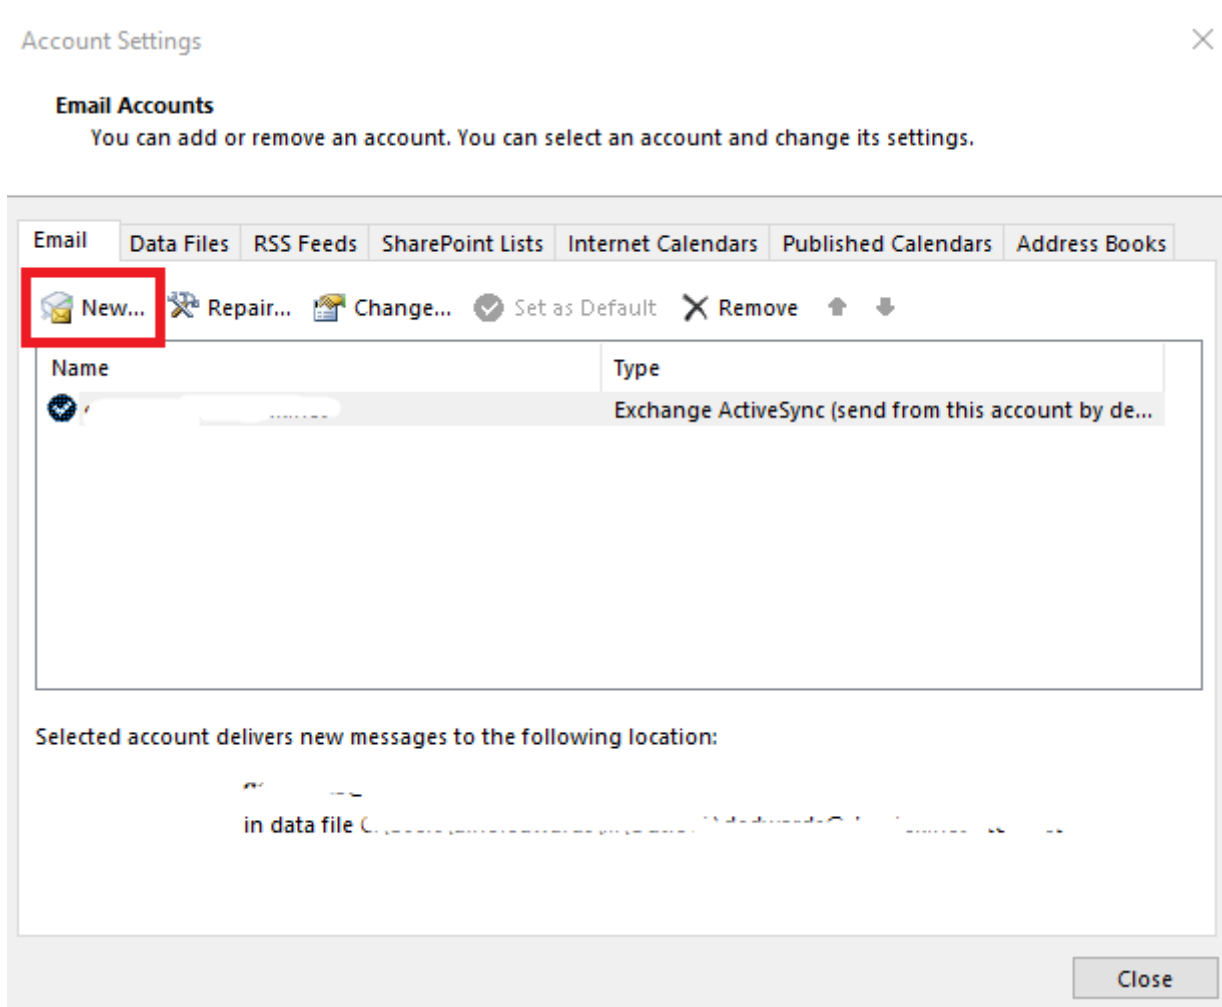

In the Mail Setup window, click on **Email Accounts...** (**Figure 3**)

Figure 3

In the **Email Accounts** window, click on **New...** (Figure 4).

Figure 4

In the **Auto Account Setup** window, select **Manual setup or additional server types** and click **Next** (Figure 5).

Figure 5

Help

On the **Choose Your Account Type** window, select **POP or IMAP** and click **Next** (Figure 6).

Figure 6

The screenshot shows a window titled "Add Account" with a close button (X) in the top right corner. Below the title bar is a section titled "Choose Your Account Type". There are three radio button options:

- ☐ **Office 365**
Automatic setup for Office 365 accounts
Email Address:
Example: ellen@contoso.com
- ☒ **POP or IMAP**
Advanced setup for POP or IMAP email accounts
- ☐ **Exchange ActiveSync**
Advanced setup for services that use Exchange ActiveSync

At the bottom of the window, there are four buttons: "< Back", "Next >", "Cancel", and "Help". The "Next >" button is highlighted with a red box.

On the **POP and IMAP Account Settings** window, fill out the all fields ensuring you set the the **Account Type** drop-down to **IMAP**, the **Incoming mail server** and the **Outgoing mail server (SMTP)** fields to **mail.hosting.deeztek.com** and click the **More Settings ...** button (**Figure 7**):

☒ Automatically test account settings when Next is clicked
Mail to keep offline: All [Slider]

Outlook will test the incoming mail server and attempt to send a test email message. If everything goes well, you should see the following **Test Account Settings** window with checkmarks for each successful test. Click the **Close** button (**Figure 11**).

Figure 11

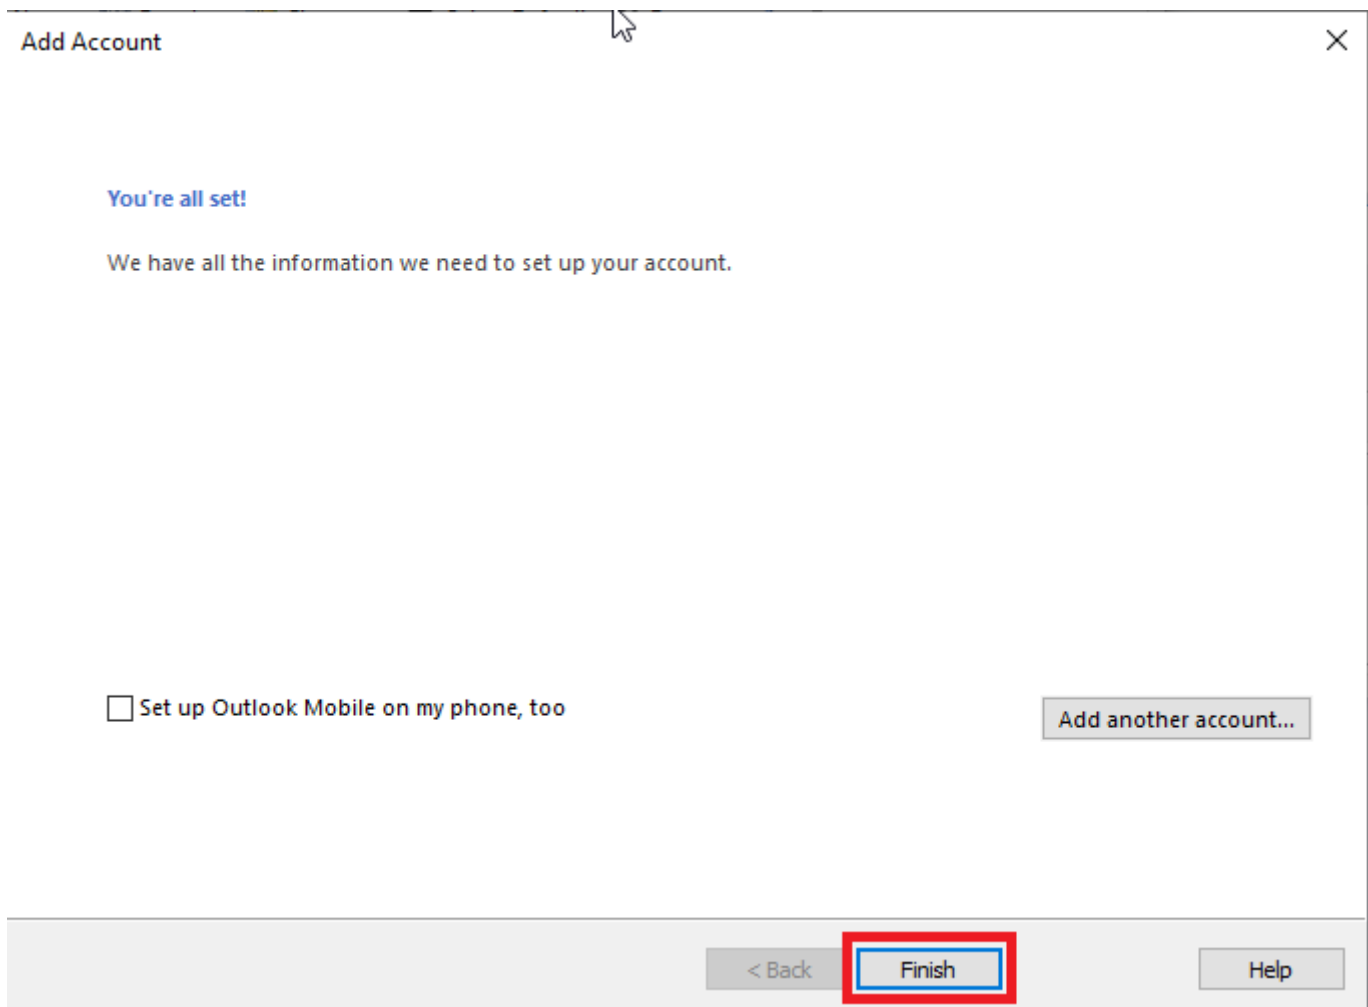

Test Account Settings

Congratulations! All tests completed successfully. Click Close to continue.

Tasks	Status
✓ Log onto incoming mail server (IMAP)	Completed
✓ Send test email message	Completed

On the following window, click the **Finish** button (**Figure 12**).

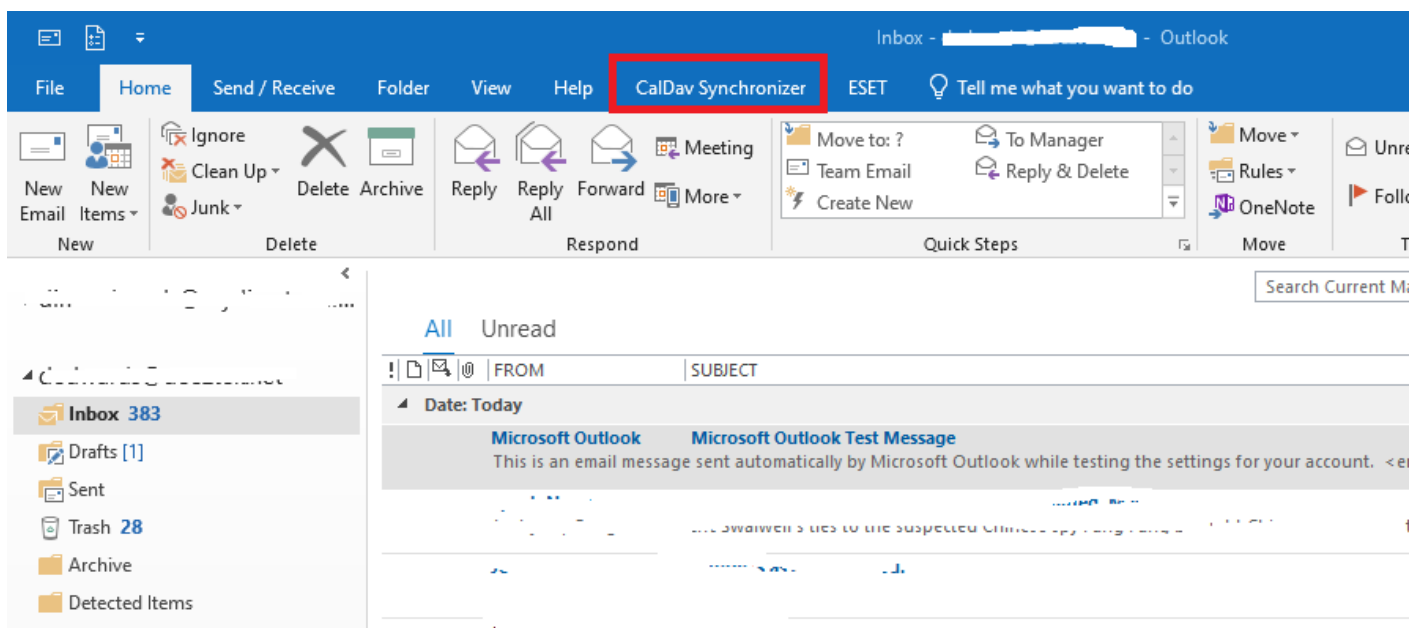

Figure 12

Configure CalDav Synchronizer

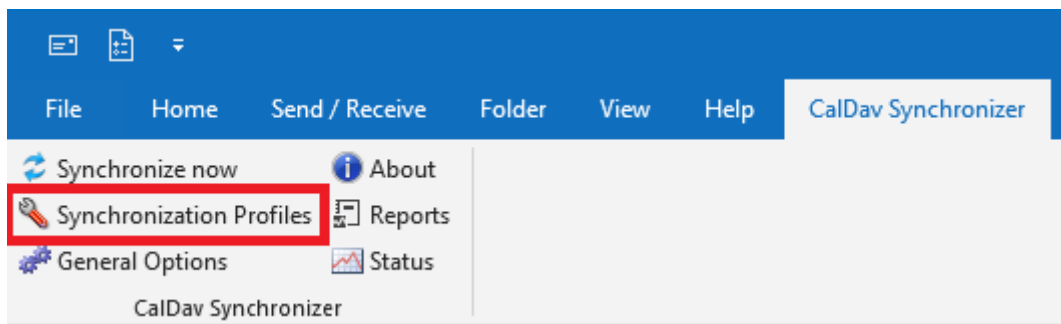

From the Outlook main window, click on **CalDav Synchronizer** from the top menu (**Figure 13**).

Figure 13

Next, click on **Synchronization Profiles** button (**Figure 14**).

Figure 14

In the CalDav **Options** window, click the  (Add multiple profiles) button and in the **Select Profile Type** window, select **Sogo** and click **OK** (**Figure 15**).

Figure 15

Back in the **Options** window under **Server Settings** section, place a checkbox on **Use IMAP/POP3 account password** (1) and then click the **Get IMAP/POP3 account settings** button (2). It should automatically fill in the **DAV URL**, **Username** and **Email address** fields. Next, click on the **Discover resources and assign to Outlook folders** button (3) (**Figure 16**).

Figure 16

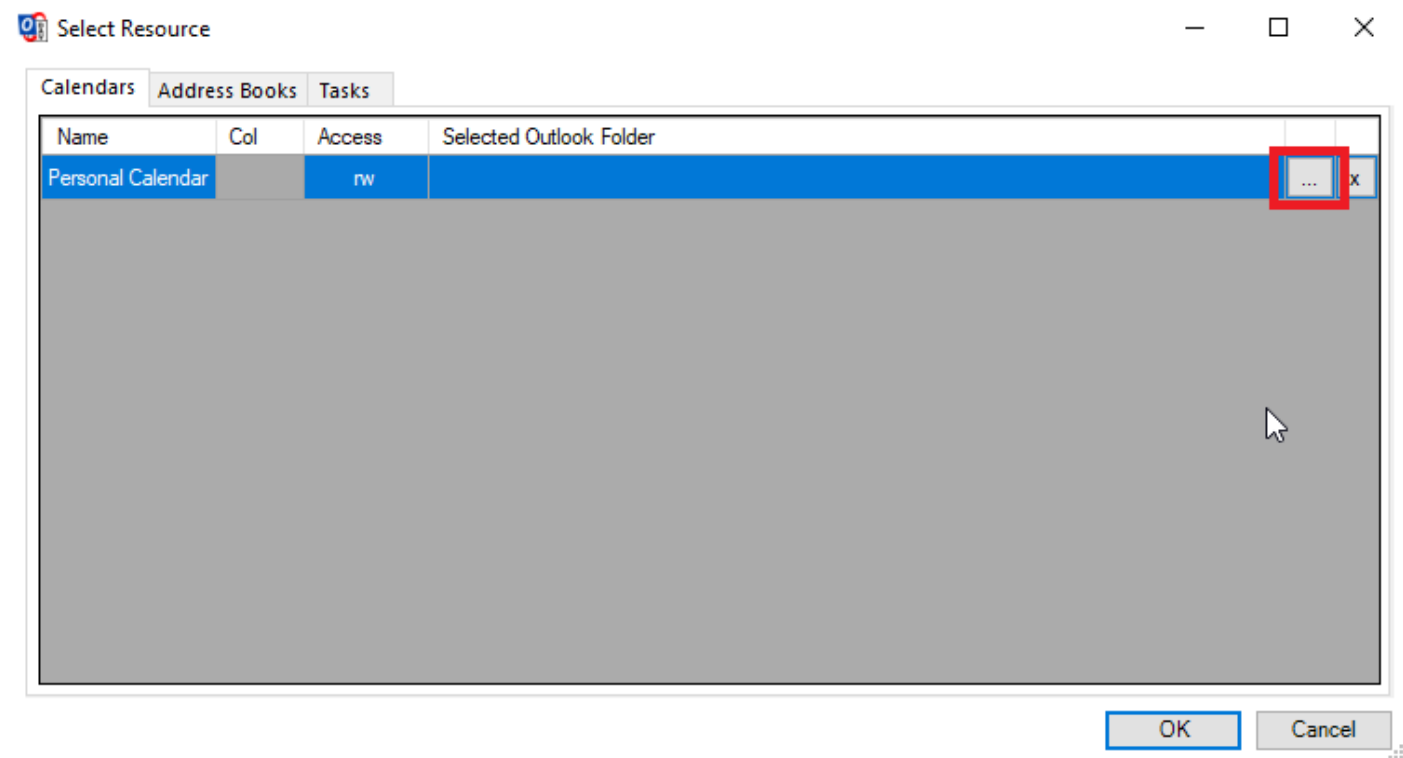

In the **Select Resource** window, in the **Calendars** tab, click the  button to the right of the **Personal Calendar** (Figure 17).

Figure 17

In the **Select Folder** window, click the **New...** button (**Figure 18**).

Figure 18

In the **Create New Folder** window, under the **Name** field enter **Calendar**, under the **Folder contains** drop-down select **Calendar Items** ensure you have selected the correct e-mail account under the **Select where to place the folder** section and click the **OK** button (**Figure 19**).

Figure 19

Back in the **Select Folder** window, you should have a new folder named **Calendar (This computer only)**, select it and click the **OK** button (**Figure 20**).

Figure 20

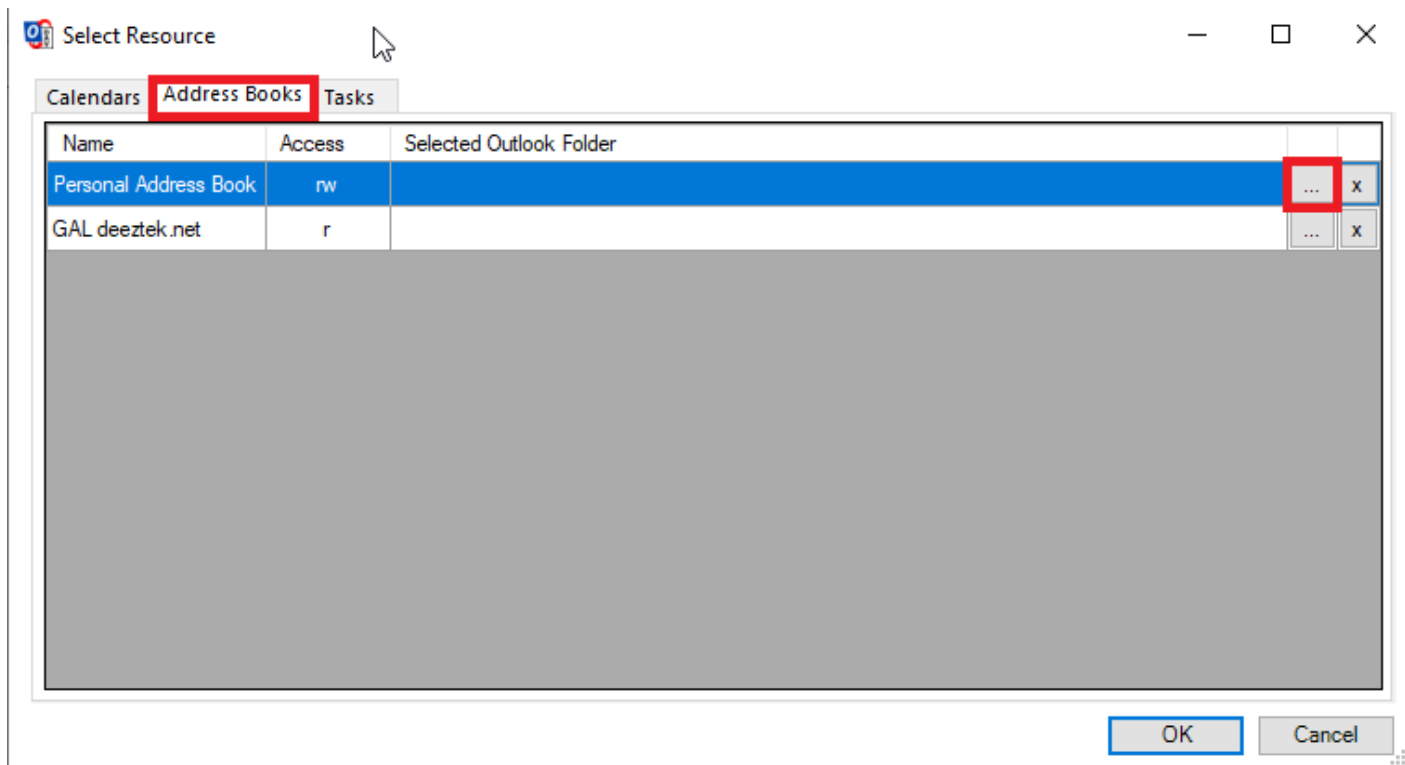

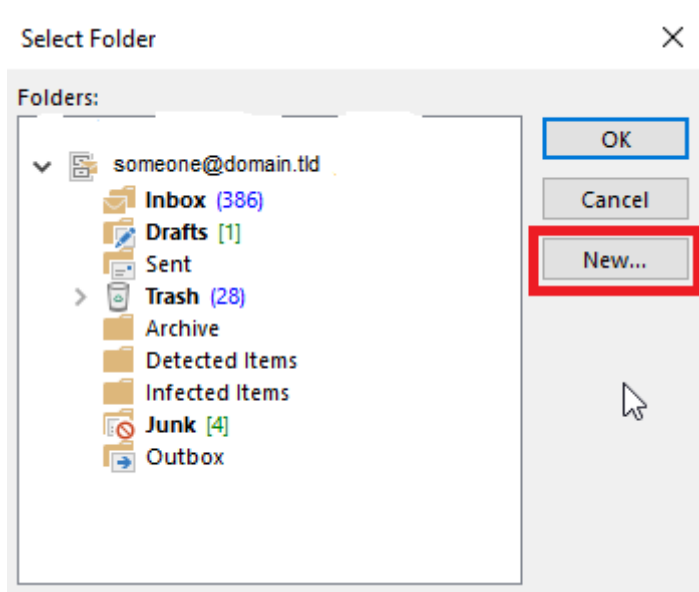

Back, in the **Select Resource** window, click the **Address Books** tab and click the  button to the right of the **Personal Address Book** (**Figure 21**).

Figure 21

In the **Select Folder** window, click the **New...** button (Figure 22).

Figure 22

In the **Create New Folder** window, under the **Name** field enter **Contacts**, under the **Folder contains** drop-down select **Contact Items** ensure you have selected the correct e-mail account under the **Select where to place the folder** section and click the **OK** button (Figure 23).

Figure 23

Back in the **Select Folder** window, you should have a new folder named **Contacts (This computer only)**, select it and click the **OK** button (**Figure 24**).

Figure 24

Back, in the **Select Resource** window, click the **OK** button (**Figure 25**).

Figure 25

Back in the **Options** window, select **Sogo (Personal Calendar)** on the left-hand pane and ensure you place a check mark on **Synchronize items immediately after change** on the right-hand pane (**Figure 26**).

Figure 26

Next, select **Sogo (Personal Address Book)** on the left-hand pane and ensure you place a check mark on **Synchronize items immediately after change** on the right-hand pane and click the OK button (**Figure 27**).
