Configure Thunderbird for Hosted Mail

This guide assumes you are configuring Thunderbird for the first time.

In the **Set Up Your Existing Email Address** window, enter your full name in the **Your name** field, your e-mail address in the **Email address** field and your password in the **Password** field, ensure **Remember password** is checked and click the **Configure manually..** button (**Figure 1**).

Set Up Your Existing Email A	Set Up Your Existing Email Address

Ent	er account information			
	Please provide a friendly n credentials for your server:	ame for the new TbSync account and the :		
	Account name:	MyConnection		
	User name:	jsmoe@domain.tld		
	Password:	••••••		
			•	
	Server URL:	optional		
	Notes:			
	For the automatic discovery of the CalDAV & CardDAV service endpoints, please enter your credentials and the host name of your server (e.g. 'cloud.myserver.de').			
	If your username is an e-m optional, as the informatio directly from your service	nail address, specifying the server becomes on about the service endpoints may be obtained provider via an RFC6764 request (if supported).		
		< <u>B</u> ack <u>N</u> ext > Cance	I	

In the Confirm account creation window, click the Finish button (Figure 14).

Figure 14

Confirm account creation

The following settings have been verified successfully:				
Account name:	MyConnection			
User name:	(
CaIDAV server address:	https://mail.hosting.deeztek.com/	SOGo/d		
CardDAV server address:	https://mail.hosting.deeztek.com/	SOGo/d		
Click "Finish" to create a new	TbSync account with these settings.			
	< <u>B</u> ack Finish	Cancel		

Back in the **TbSync account manager** window, place a check mark on **Enable and synchronize this account (1)**, under **Available resources**, place a checkmark on **GAL**, **Personal Address Book**, **Personal Calendar (2)**, set the **Periodic synchronization (in minutes)** to **5** minutes (3) and click the **Synchronize now (4)** button (**Figure 15**).

 \times

If everything goes well, you should get an **OK** under **Status**. Then you can close the **TbSync account manager** window (**Figure 16**).
