

# Connect Google Calendar to Hosted Mail

- Navigate to **Google app passwords** at <https://myaccount.google.com/apppasswords>.
- In the **App name** field enter a name to identify the app (Ex: Deeztek Hosted Mail) and then click on the **Create** button (Figure 1).

**Figure 1**

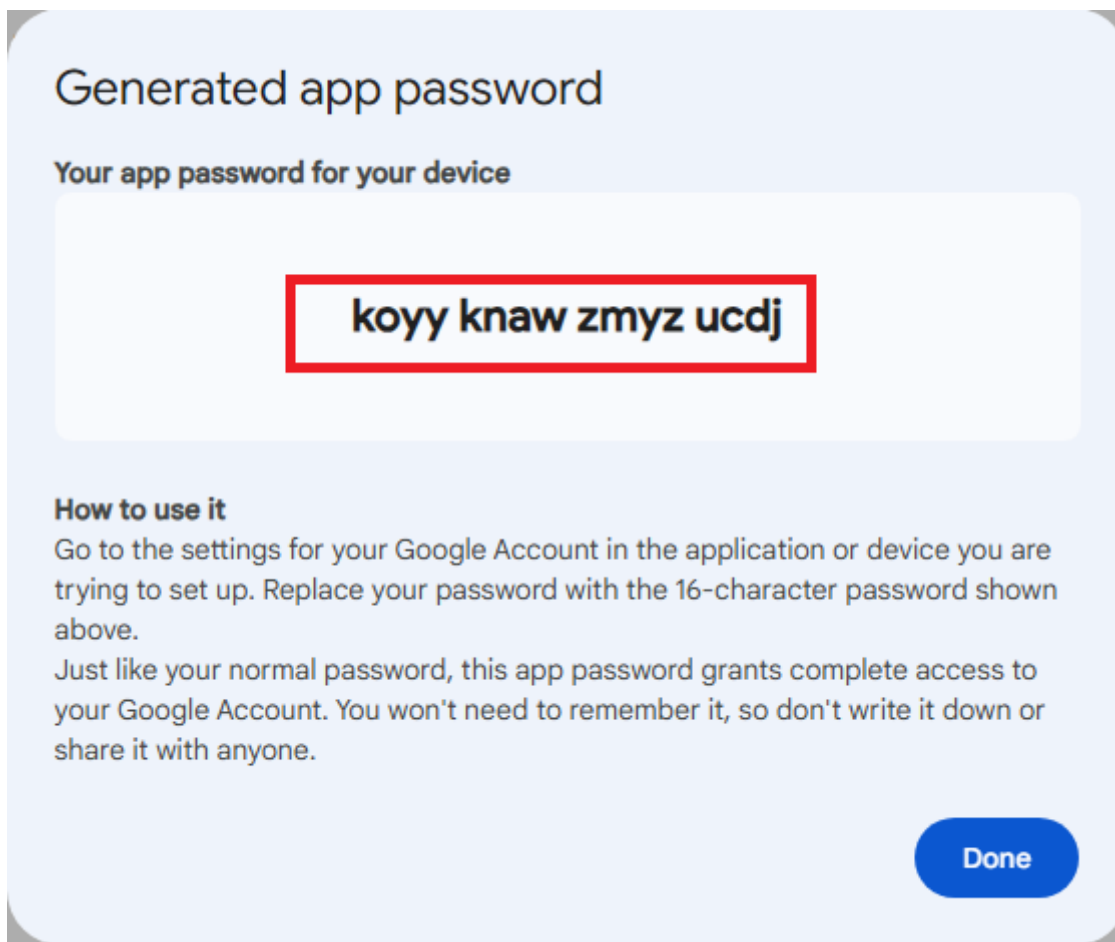

To create a new app specific password, type a name for it below...

The screenshot shows the Google app passwords creation interface. At the top, it says "To create a new app specific password, type a name for it below...". Below this is a text input field labeled "App name" which contains the text "Deeztek Hosted Mail". To the right of the input field is a blue "Create" button. Both the input field and the button are highlighted with red rectangular boxes.

- On the **Generated app password** window, ensure you take note of the generated password (Figure 2).

**Figure 2**

- Login to your Hosted Mail mailbox at <https://mail.hosting.deeztek.com/Sogo> and click on the Calendar icon on top-right (Figure 3).

**Figure 3**

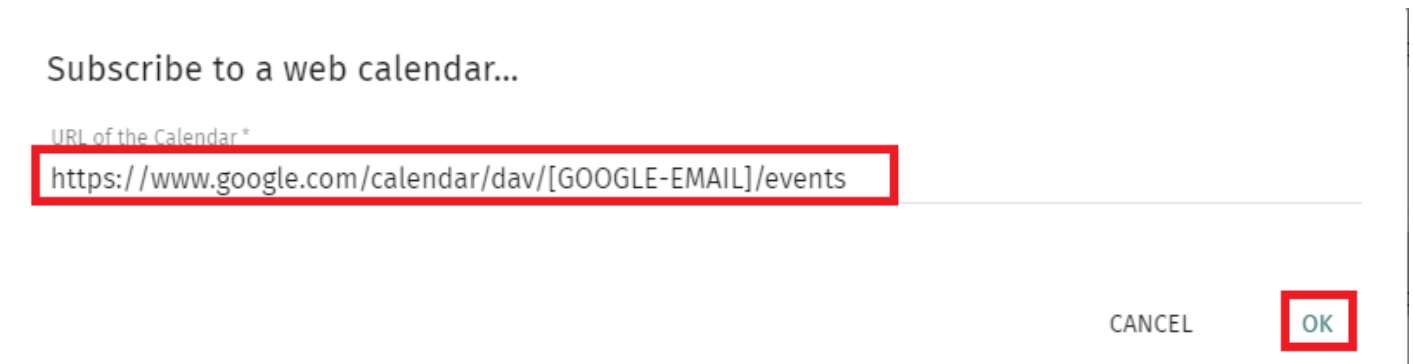

- Under Calendars, click on the + icon to the right of **Web Calendars** (Figure 4).

**Figure 4**

- On the **Subscribe to a web calendar** window, enter the following address on the **URL of the Calendar** field: [https://www.google.com/calendar/dav/\[GOOGLE-EMAIL\]/events](https://www.google.com/calendar/dav/[GOOGLE-EMAIL]/events) and set **[GOOGLE-EMAIL]** to your google e-mail address and click **OK** (Figure 5).

CANCEL OK

- After a few seconds you will get a **Please identify yourself to [www.google.com](http://www.google.com)** window. In the **Username** field enter your Google e-mail address, in the **Password** field enter the password that was generated for you from above and click the **OK** button (Figure 6).

CANCEL OK

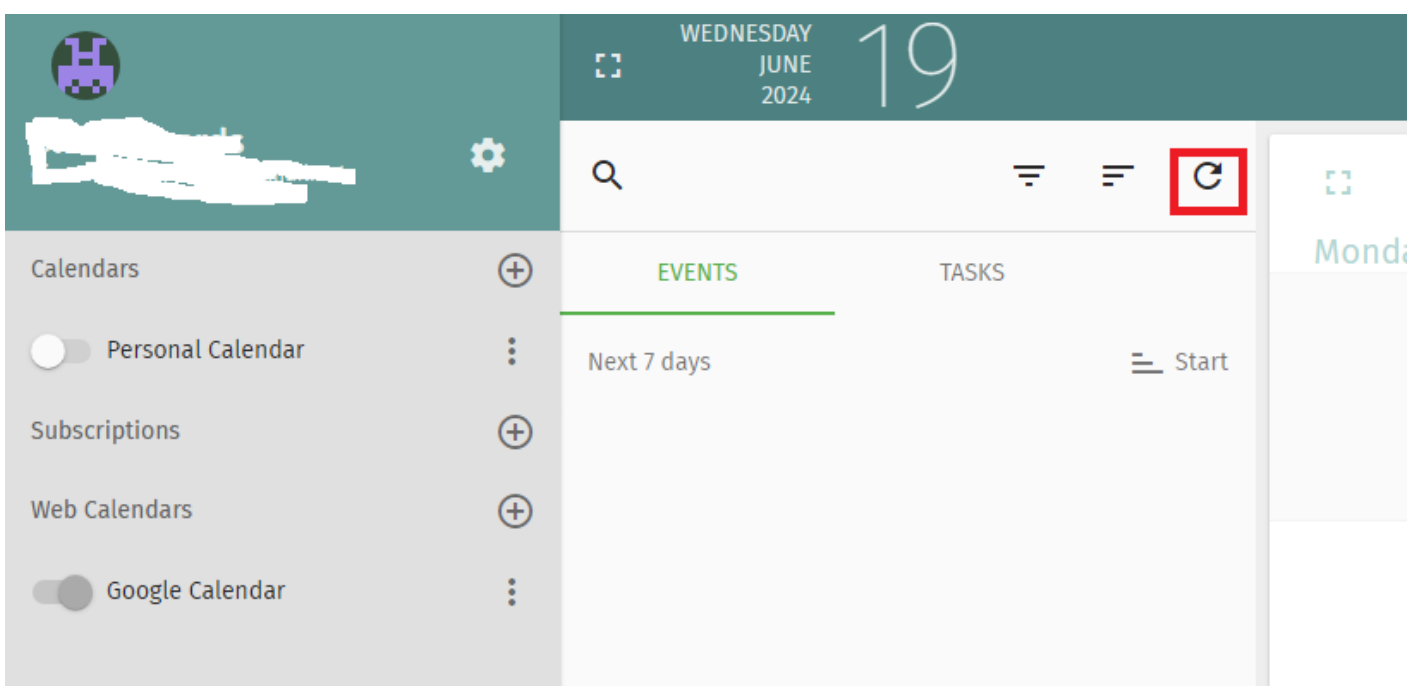

- Next, you should see a new calendar called **events** under **Web Calendars**. Click on the 3 vertical dots to the right of the calendar and on the resultant window, click on **Rename** and then rename the calendar to something more descriptive (Ex: Google Calendar) (Figure 7).

**Figure 7**

- Next, click on the refresh icon and if everything went well, your Google Calendar should populate with your events (Figure 8).
